

Examples of potential items to present and discuss at TCW during 2017

Research strategy

- **Fish and shellfish safer for human consumption;**
- **Contaminants degrading the health, and contributing to mortality, of fish and wildlife;**
- **Occurrence, concentrations and sources;**
- **Assess relative risk of contaminants, and options for mitigation, to inform policy and prevention strategies,**
- **Issues of emerging concern**

Selected Activities to support elements:

- Findings from key reports and studies
- Co-benefits of nutrient and sediment reductions
- Approaches to assess relative risk

Policy and Prevention strategy (focused on PCBs)

- **Regulatory Approaches**
- **Education and Awareness**
- **Voluntary Programs**
- **Science**

Selected Activities to support elements:

- PCB resource center
- PCB Track down study approach
- Indicator development
- GIS mapping
