**Red:** No response yet

**Orange:** Has responded to the request but no data provided yet (it is anticipated data will eventually be provided)

**Green:** Data has been provided or is already in house

**Thank you to everyone who submitted BMP data!**

# Jurisdiction Data Request

Number of BMPs by Agency in Jurisdiction Databases						
Agency/State	MD	NY	PA	VA	DC	WV
ARS	0				0	
DoD	1,879	2	396	1,400	131	7
GSA	54	0	0	0	61	0
NASA	29			29		
NPS	0		2	26	2	4
Smithsonian	0			0	0	
US FWS	0		11	3		13
USFS				2		0

# Next Steps

## 1. Match jurisdiction & federal agency BMP records

*Use federal agency BMP information & description to identify jurisdiction Tracking ID*

## 2. Identify creditable & non-creditable BMP types

*Flag BMPs that aren't credited to federal agencies, including Erosion & Sediment Control, Agriculture Practices, Forest Harvesting, etc.*

## 3. Upon release of the CAST 2021 Progress scenario, use NEIEN Validation Reports and CAST BMP Input Report to capture BMP errors

*We can track BMPs that have a jurisdiction Tracking ID*

## 4. Complete BMP Credit Evaluation

# Creditable vs. Non-Creditable BMPs

Federal agencies do not receive credit toward TMDL FPGs in CAST for some classes of BMPs because they do not have assigned pollutant loads in those source sectors.

## Construction

Erosion & Sediment Control Level 1  
Erosion & Sediment Control Level 2  
Erosion & Sediment Control Level 3

## Harvested Forest

→ Forest Harvesting Practices

## Agriculture

Conservation Plans  
Tillage Practices  
Cover Crops  
Manure Management

# FPG Discussions with Jurisdictions

EPA is currently scheduling calls with the jurisdictions for early to mid-June.

The purpose of these calls are to:

Revisit questions about the current status of FPGs, the methods used to calculate them, and equitability between fed and non-fed partners

Ask questions about the BMP databases provided
