

# MDE Turf vs. Conservancy Low Veg

- Delineations influenced by delineation of other cover types
  - Forest and impervious
- Delineations differ between MDE and conservancy
  - How MDE turf and conservancy low veg differ spatially is not important for our discussion
  - There will be differences
- Focus should be:
  - Is the left-over area turf or open space or ag?
  - Is the low veg in the parcel turf or open space?
- Issue
  - What about mis-classification of scrub-shrub?
