

## **Revised Submission Date for “new” Milestones**

**Issue:** Jurisdictions requested for EPA to change the milestone submission deadline from January 7 of each even year to March of each even year. This would give jurisdictions the opportunity to see the progress run results for the current year prior to setting new milestones.

### **Current “new” milestone due dates:**

Draft milestones (input deck and programmatic) are due on November 1 of odd year.

Final Milestones (input deck and programmatic) are due on January 7 of every even year

### **Revised “new” milestone due dates:**

Milestones (input deck and programmatic) are due on January 15 of every even year.

Jurisdictions have the opportunity to revise their milestones (input deck and programmatic) based on EPA comments and/or the results of the final progress run within 30 days of the final progress run data being available. The date for final progress run results will vary by state.

---

### **Annual Programmatic Milestone Updates (due every year):**

Current due date is December 31 of every year.

Revised due date is January 15 of every year.
