CONOWINGO INFILL SCENARIOS

Lee Currey presented on the new Conowingo scenarios proposed.

Action Items

- Carl Cerco will provide plots for the Susquehanna flats to the Modeling Workgroup.
- Carl Cerco will provide a biomass representation to the Modeling Workgroup.
- Carl Cerco will compare TSS January 1996 observations and step 2 to step 3. The comparison will be presented to the Modeling Workgroup and adjustments will be made as needed.

PROTOTYPE AIR-WATER EXCHANGE

Robin Dennis reviewed the proposal for the prototype air-water exchange.

Action Items

- There was general acceptance for this approach among the participants of the meeting, comments will be accepted up to the date of the Modeling Quarterly, and the official decision to move forward with a recommendation to the WQGIT will be made at the October Modeling Quarterly. If the approach is approved at the Modeling Quarterly, the proposal for the prototype air-water N exchange will be brought to the WQGIT in November.
