Chesapeake Bay Program Partnership Agriculture Workgroup

Workgroup Members:

The Maryland Department of Agriculture is pleased to announce that Alisha Mulkey has joined our team as the WIP Data Tracking Coordinator. Mrs. Mulkey not only brings a strong background in conservation but has been researching the application of the Annual P Loss Estimator (APLE) tool for phosphorus modeling. She regularly attends Modeling Workgroup meetings and recently presented preliminary findings at the Modeling Quarterly Review meeting. In addition to ensuring the accurate reporting of conservation implementation, she will be engaged in model related discussions concerning agriculture.

As a result, the Maryland Department of Agriculture would like the Workgroup to consider Mrs. Mulkey as the official representative for Maryland on the Agriculture Modeling Subcommittee.

Should you have any questions, please do not hesitate to contact me at jason.keppler@maryland.gov

Thanks again for your consideration,

Jason Keppler
