<u>Region 3 Priority Science Needs</u>

Science Need Submittal

Division: _____

Title (1 sentence): Provide a title of the research or science need or issue.

Input Title Here

Background (1-2 paragraphs) – Regulatory or policy issue where research/science could support actions.

Input Background Narrative Here

3) **Product or Service** - Describe exactly what is needed to best address the issue and support regional or client environmental protection efforts. For example, a new or improved model, critical literature review, new analytical technique, training, etc.

Input Product or Service Narrative Here

4) **Impact** (2-3 sentences) - Predict the impact of ORD support. How it will be used and who would benefit, i.e., impact on regional (state, local government, community) policy or regulatory actions.

Input Impact Narrative Here

5) **Timeframe** - Estimated when the product or service is needed and used.

Input Timeframe Here

6) **Contact(s)** – Provide the point(s) of contact in R3 to pursue the issue further.

Input Contacts Here

(7) **Visuals** - Feel free to include graphics or photos that explain or emphasize the science need.

Input Visuals Here (or as attachments)
