

Tim P. Sexton

Tim serves as Virginia's Nutrient Management Program Manager for the Virginia Department of Conservation and Recreation. He oversees all aspects of Virginia's program including the training and certification program, urban nutrient management program, and ag program. He oversees budget on as many as 19 contracts and grants totaling over \$2.5 million annually

He is a licensed professional soil scientist, a certified nutrient management planner and has over 40 years of field experience relating to crops and soils,

Mr. Sexton has served on the Ag Work Group for six years as Virginia's spokesman and has served on six expert panels for the phase 5.3.2 version of the model.

During his career, Mr. Sexton has specialized in industrial and municipal waste management, and in remediation of sites in the southeast with a goal of making them productive, and in water management assisting those in need of management water resources for domestic and agricultural use.

He owned a successful consulting firm for 18 years and has worked for three government agencies.

Tim has a Master's Degree in Soil Science from NC State University. He grew up on a small farm, where cattle and produce crops were the main source of income.
