

2014 Chesapeake Watershed Agreement

Achieving the Goal of Stewardship

Developing a Citizen Stewardship Indicator Preliminary Results

Status & Trends Workgroup

Stewardship Workgroup

May 9, 2017

Objectives for Today

- 1. Review Process of Developing an Indicator**
- 2. Methods and Analysis**
- 3. High-Level Results**
- 4. Implications and Next Steps**

Stewardship Outcome

“Increase the number and diversity of trained and mobilized citizen volunteers with the knowledge and skills needed to enhance the health of their local watersheds.”

Citizen Stewardship Framework

Increasing citizen actions for watershed health

Why Measure Stewardship?

- Track progress in engaging the public
- Design social marketing campaigns for BMP adoption and behavior change
- Improve strategic communications to build public support for Bay restoration work
- Prioritize investments in citizen-led action
- Improve local decision-making

Photos Courtesy Chesapeake Bay Program

DEVELOPING THE STEWARDSHIP INDICATOR

Puget Sound Behavior Index

- Measures 28 positive and negative behaviors
- Clearly stated criteria for including behaviors
- Stratified for 12 counties; 3,600 interviews
- Conducted biennially by telephone ('11, '13, '15)

GreendexTM

A research project by National Geographic and GlobeScan

NATIONAL
GEOGRAPHIC

GLOBE
SCAN

Greendex 2014:

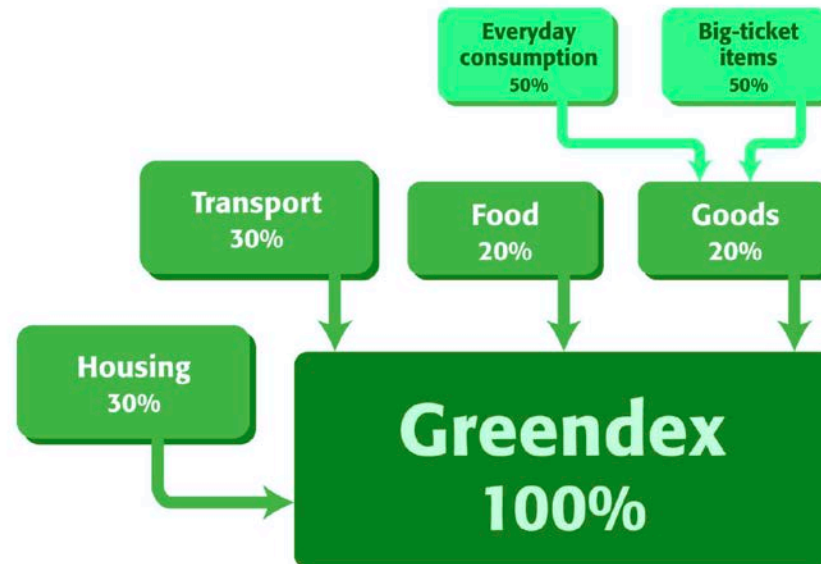

Consumer Choice and the Environment—
A Worldwide Tracking Survey

“an international research approach to measure and monitor consumer progress towards environmentally sustainable consumption.”

Index Structure with Weighting

NATIONAL
GEOGRAPHIC

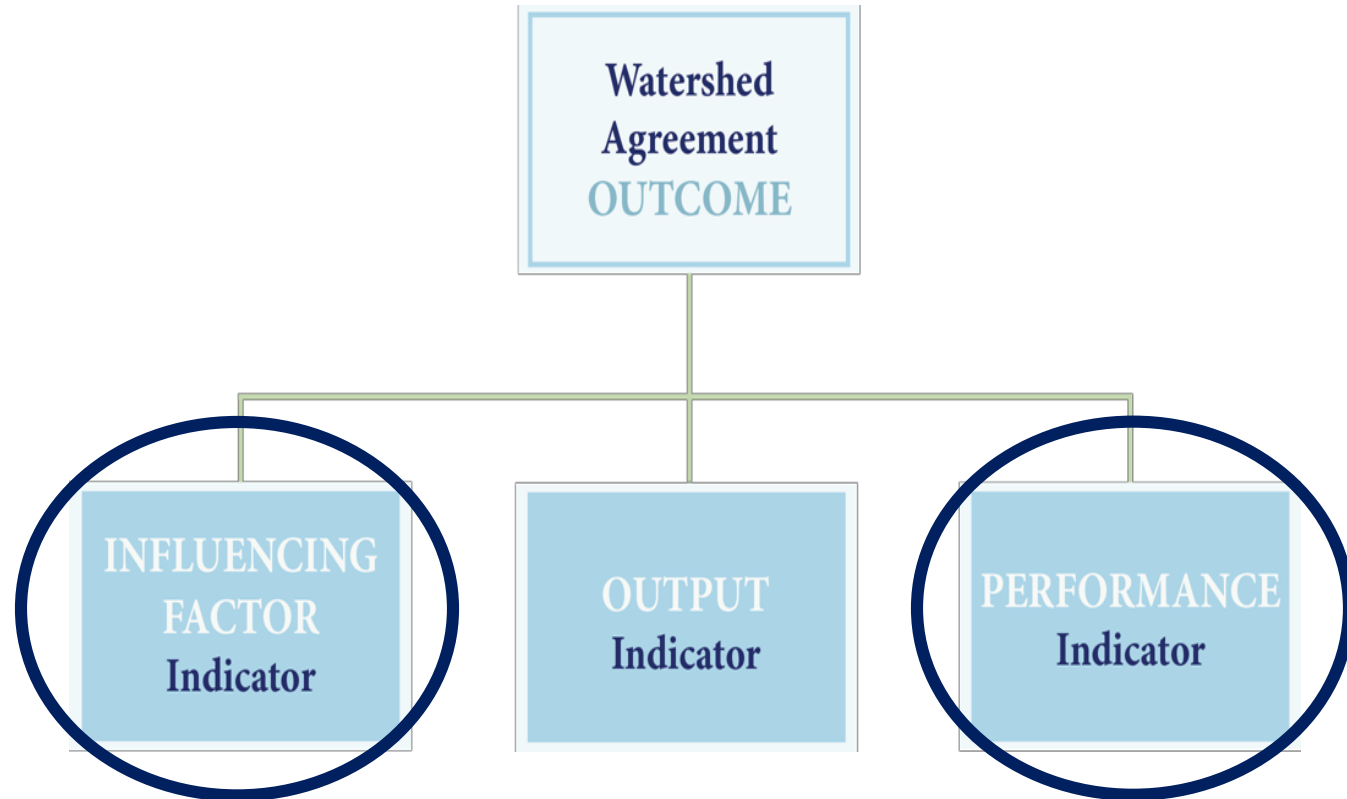

In calculating the total Greendex scores, the sub-indices are weighted as follows:

- **Meta-index with 4 sub-indices.**
- 65 variables, internally weighted.

Chesapeake Bay Program Indicators Framework

Approved November 2015 Management Board Meeting

Information Support

Three information types are needed to support adaptive management and communication needs.

Influencing Factors – What KEY influencing factors are impacting the achievement of an outcome?

Outputs – Are we doing what we said we would do in our work plans and management strategies?

Performance – Are we achieving the outcome?

Stakeholders

- NGOs
- EPA Representatives
- State Department Representatives
- Bay Program staff
- Funders
- Local government
- Chesapeake Stormwater Network
- UMCES
- VA Tech University
- University of Maryland

Predecessor Survey Tool:

www.BaySurvey.org

Home and Property Survey

Thank you for taking part in this brief survey. This is the first survey of its kind, as we learn how residents, farmers, institutions, and businesses all throughout the Chesapeake Bay area, the Atlantic Coastal Bays, and Western Maryland are handling rainwater, vegetation, and other issues on their properties.

Your responses will be combined with thousands of others from around the Bay to create a complete picture. Thanks again for participating in this important project.

* I am 18 years of age or older and voluntarily agree to participate in this survey.

Yes

No

Next

From 2015 Stakeholder Process:

- ✓ 2025 time horizon for this Indicator.
- ✓ Tracking human behavior.
- ✓ Measure:
 - Adoption of Stewardship Behaviors
 - Volunteerism Behavior
 - Civic Engagement Behavior
 - Likelihood of Future Adoption of Behaviors
 - Keys to Individual Engagement

Stewardship Behavior Measurement Criteria

1. Involves individual decision-making
2. Is repetitive and can be tracked over time
3. Can be broadly adopted
 - A. Not just by experts
 - B. Not pre-emergent
4. Has an impact on water health
5. And/or will engage the public

Measured Behaviors

- Pet waste (2: on property/off property)
- Leaves/Lawn clippings (2)
- Litter (2: drop/pick-up)
- Fats, grease/Medicines down the drain (2)
- Fertilizer use/keep off hard surfaces (2)
- Pesticide/Herbicide use (2)
- Conservation landscaping
- Rain garden installation
- Septic system
- Tree planting
- Downspout redirect
- Rain barrel/Connected, emptied (2)
- Water conservation

Response Scales

Yes/No:

In the last several years, have you...?

Replaced an area of grass lawn with native low-maintenance plants?

Frequency (5-point):

For each of the following things, please tell me if you never, seldom, sometimes, usually, or always do it.

Wash used cooking oil or grease down the drain.

Agreement (5-point):

For each of the statements that follow please tell me if you strongly disagree, somewhat disagree, are neutral, somewhat agree, or strongly agree.

Polluted water affects me personally.

Likelihood (3-point):

Looking forward over the next year or so, how likely are you to do each of these things using the scale not likely, somewhat likely, or very likely.

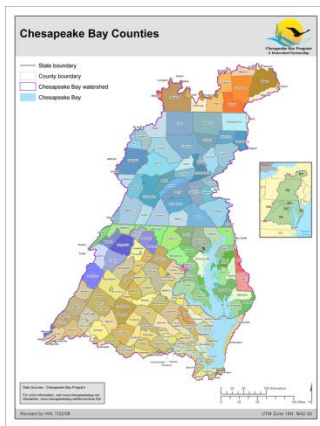

Have your septic system inspected or pumped out.

What This Survey Tool Can Do

- ✓ Measure and track Stewardship progress.
- ✓ Inform smart behavior selection for practitioners.

Level of Adoption x Likelihood x Impact

- ✓ Segment data by major jurisdiction, demographic.

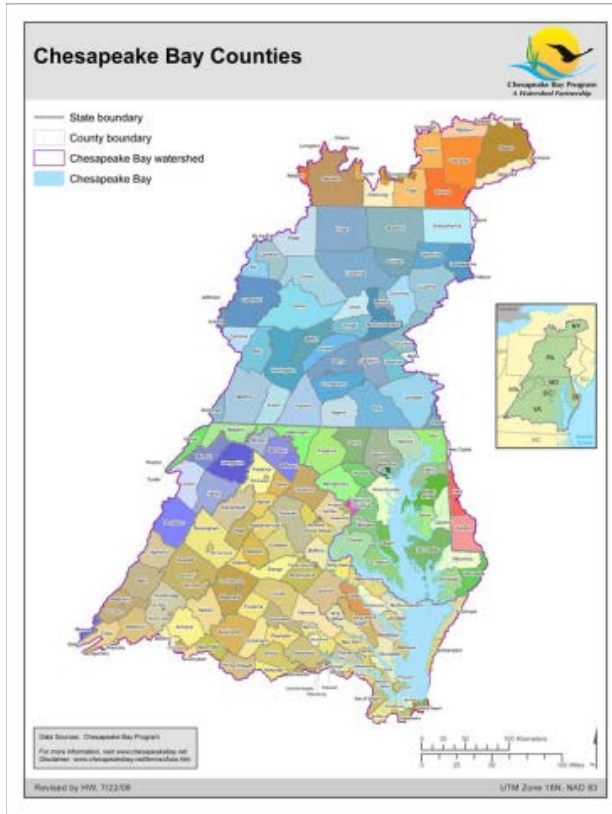

- ✓ Be a resource for other Bay Program priorities:
Access, Diversity.

What This Survey Tool is *Not*

- ↓ The citizen stewardship index will NOT verify implementation of behaviors or practices per Bay Program protocols. Other tools like the Smart Tracker exist for this purpose.
- ↓ It will NOT answer why questions.
- ↓ It will NOT measure public policy preferences.
- ↓ It will not measure perceptions and attitudes, except those that directly drive stewardship behavior.

Citizen Stewardship Indicator

Sampling Methodology

	2017 Baseline
	All states statistically significant N=5,200
VA	1,000 ($\pm 3.1\%$)
MD	1,000 ($\pm 3.1\%$)
PA	1,000 ($\pm 3.1\%$)
DC	800 ($\pm 3.5\%$)
WV	600 ($\pm 4.0\%$)
NY	400 ($\pm 4.9\%$)
DE	400 ($\pm 4.9\%$)

Fielded March – May 2017
13-minute interview
Wireless and Landline
Spanish language interviewing

Segmentation Opportunities

- **Jurisdiction**
- **Age**
- **Educational attainment**
- **Health status (self-assessed)**
- **Household size, presence of children**
- **Home ownership**
- **Housing type**
- **Community size**
- **Agriculture**
- **Religious affiliation, worship frequency**
- **Race/ethnicity**
- **Household income**
- **Gender**

High-Level Results: Performance Indicator

Citizen Stewardship Indicator

2017 Baseline: *Partial, Unweighted Data (4/26/17)*

Negative Behaviors

■ Never/No ■ Seldom ■ Sometimes ■ Usually/Frequently ■ Always/Very Frequently/Yes ■ Not sure

Citizen Stewardship Indicator

2017 Baseline: *Partial, Unweighted Data (4/26/17)*

Positive Behaviors: Higher Tier

■ Always/Very Frequently/Yes ■ Usually/Frequently ■ Sometimes ■ Seldom ■ Never/No ■ Not sure

Citizen Stewardship Indicator

2017 Baseline: *Partial, Unweighted Data (4/26/17)*

Positive Behaviors: Lower Tier

■ Always/Very Frequently/Yes ■ Usually/Frequently ■ Sometimes ■ Seldom ■ Never/No ■ Not sure

Citizen Stewardship Indicator

2017 Baseline: *Partial, Unweighted Data (4/26/17)*

Behavior Scoring

10 with Highest Water Impact, Converted to 0–100 Scale

Never	Seldom	Sometimes	Usually	Always
Never	Seldom	Sometimes	Frequently	Very frequently
No				Yes
0	25	50	75	100
100	75	50	25	0

Citizen Stewardship Indicator

2016 Pilot Data

Pick up Your Dog's Waste & Dispose of It
Always + Usually

*small sample size; lower reliability data

Citizen Stewardship Indicator

Number of Behaviors Performed *Of 10 Highest Impact Behaviors*

Citizen Stewardship Indicator

2016 Pilot Data

Number of Behaviors Possible *By State*

Citizen Stewardship Indicator

2016 Pilot Data

Performance vs. Possible *Of 10 Highest Impact Behaviors*

Citizen Stewardship Indicator

2017 Baseline: *Partial, Unweighted Data (4/26/17)*

Volunteerism

36.5% can name at least one group in their own community that is working to clean up and protect local waters.

Citizen Stewardship Indicator

2017 Baseline: *Partial, Unweighted Data (4/26/17)*

Volunteerism Rollup: 25.00

Never No	Seldom	Sometimes	Frequently	Very frequently Yes
0	25	50	75	100
100	75	50	25	0

Citizen Stewardship Indicator

2017 Baseline: *Partial, Unweighted Data (4/26/17)*

Civic Engagement Rollup: 15.19

■ Very Frequently/Yes ■ Frequently ■ Sometimes ■ Seldom ■ Never/No ■ Not sure

*includes those who said both for and against

Draft Performance Indicator Rollup

Draft (4/26/17)

Individual Behavior ¹	40.15
Volunteerism ²	25.00
Civic Engagement ³	15.19
Rollup	24.11

Bay-wide, based on 2017 Baseline data to date

¹19 behaviors, weighted for water impact and % of population that could perform each behavior

²Volunteered, given money for water restoration, or aware of a group in their local community

³Spoken out on behalf of an environmental cause

High-Level Results: Influencing Factors

Citizen Stewardship Indicator

2017 Baseline: *Partial, Unweighted Data (4/26/17)*

Behaviors Most Susceptible to Change

Asked Only of Those Not Taking the Desired Action Today

Looking forward over the next year or so, how likely are you to do each of these things using the scale
(rotate high to low/low to high): [very likely, somewhat likely, (or) not likely]?

Citizen Stewardship Indicator

2017 Baseline: *Partial, Unweighted Data (4/26/17)*

Behaviors Less Susceptible to Change

Asked Only of Those Not Taking the Desired Action Today

Looking forward over the next year or so, how likely are you to do each of these things using the scale
(rotate high to low/low to high): [very likely, somewhat likely, (or) not likely]?

Influencing Factors: Individual Engagement

Citizen Stewardship Indicator

2017 Baseline: *Partial, Unweighted Data (4/26/17)*

Polluted water affects me personally.

Level of Agreement

■ Strongly agree ■ Somewhat agree ■ Neutral ■ Somewhat disagree ■ Strongly disagree

Citizen Stewardship Indicator

2017 Baseline: *Partial, Unweighted Data (4/26/17)*

I want to do more to help make local
creeks, rivers, and lakes healthier.

Level of Agreement

■ Strongly agree ■ Somewhat agree ■ Neutral ■ Somewhat disagree ■ Strongly disagree

Citizen Stewardship Indicator

2017 Baseline: *Partial, Unweighted Data (4/26/17)*

I know some things I can do to help
reduce water pollution where I live.

Level of Agreement

■ Strongly agree ■ Somewhat agree ■ Neutral ■ Somewhat disagree ■ Strongly disagree

Citizen Stewardship Indicator

2017 Baseline: *Partial, Unweighted Data (4/26/17)*

My actions contribute to water pollution
where I live.

Level of Agreement

■ Strongly agree ■ Somewhat agree ■ Neutral ■ Somewhat disagree ■ Strongly disagree

Citizen Stewardship Indicator

2017 Baseline: *Partial, Unweighted Data (4/26/17)*

The water near where I live is healthy
and safe for boating, fishing, or swimming.
Level of Agreement

■ Strongly agree ■ Somewhat agree ■ Neutral ■ Somewhat disagree ■ Strongly disagree

Influencing Factors: Other Context

Citizen Stewardship Indicator

2017 Baseline: *Partial, Unweighted Data (4/26/17)*

If people work together, water pollution
around here can be fixed.

Level of Agreement

■ Strongly agree ■ Somewhat agree ■ Neutral ■ Somewhat disagree ■ Strongly disagree

Citizen Stewardship Indicator

2017 Baseline: *Partial, Unweighted Data (4/26/17)*

If I wanted to volunteer to help the natural environment locally, I would know how to do that.

Level of Agreement

■ Strongly agree ■ Somewhat agree ■ Neutral ■ Somewhat disagree ■ Strongly disagree

Citizen Stewardship Indicator

2017 Baseline: *Partial, Unweighted Data (4/26/17)*

I could see myself attending meetings
or speaking out publicly for clean water.

Level of Agreement

■ Strongly agree ■ Somewhat agree ■ Neutral ■ Somewhat disagree ■ Strongly disagree

Draft Influencing Factors Scoring

Draft (4/26/17)

Individual Behavior Likelihood ¹	22.02
Individual Engagement ²	62.02
Volunteerism/Civic Engagement Likelihood ³	61.79

Bay-wide, based on 2017 Baseline data to date

¹19 behaviors, weighted for water impact and % of population that could perform each behavior

²Contextual factors predictive of individual engagement

³Three predictive factors

Next Steps

CHESAPEAKE BAY AWARENESS WEEK

Celebrating communities, families, and businesses connected to the Chesapeake Bay

1. Public Sharing of Key Findings

- June 3-11, 2017
- Build public awareness of Citizen Stewardship
- Engage media through initial launch, & over time
- Advance key storylines
- Address upstream, midstream, downstream audiences

43	E13	Worked on a community project or issue?																													

2. Make Data Available

2. Make Data Available

- Powerful dataset
- Useful to Jurisdictional partners, NGOs, academic community
- Analysis tool for practitioners to help target efforts

3. Track Progress

- Measure these metrics again at an appropriate interval.
