2021-2022 Logic and Action Plan

Tree Canopy

WQGIT Meeting 4/26/21

Julie Mawhorter
Forestry Workgroup,
Tree Canopy Coordinator
USDA Forest Service
julie.mawhorter@usda.gov

CREATE VIBRANT COMMUNITIES

Incorporating trees into common spaces in public housing increases social activities.¹ TREES in COMMUNITIES

Having larger trees in yards and on the street can improve home values by 3%-15%.²

Shoppers will spend 9%-12% more in areas with better tree canopy.³

REDUCE AIR POLLUTION

Neighborhoods with lots of trees have lower childhood asthma rates.

PROVIDE SHADE & COOLING

 Tree canopy can reduce temperatures by up to 20 degrees, lowering health risks and utility bills.

IMPROVE HUMAN HEALTH

- Trees help reduce stress, lower blood pressure, and boost the immune system.
- Shade from trees reduces radiation that causes skin cancer.

CONTROL STORMWATER

- Tree roots can trap sediment and filter contaminants from stormwater.
- One tree can reduce stormwater runoff by 13,000 gallons per year.⁴

IMPROVE PUBLIC SAFETY

Areas with increased green space have lower crime rates.³

Chesapeake Forest Restoration Strategy

Through the Chesapeake Bay Watershed Agreement, the Chesapeake Bay Program has committed to...

Goal: Vital Habitats

Outcome: Tree Canopy

Continually increase urban tree canopy capacity to provide air quality, water quality and habitat benefits throughout the watershed. Expand urban tree canopy by **2,400 acres by 2025.**

Achieving a Canopy Goal: It's not just about planting . . .

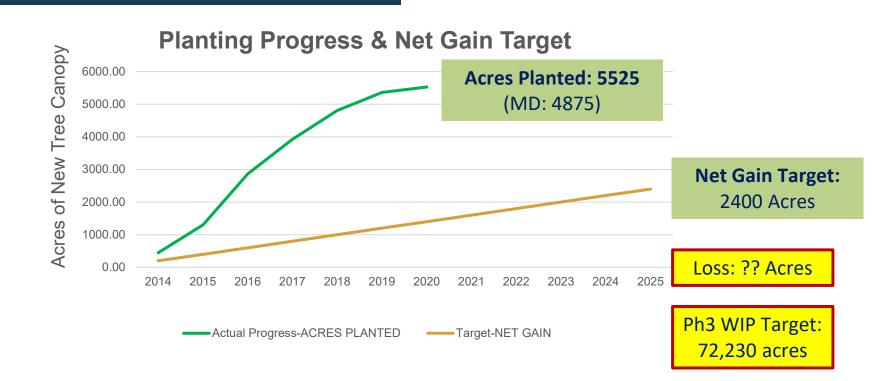

Tree Canopy Indicator has 2 components:

- 1) States report three urban tree planting BMPs annually for TMDL
- 2) Long term progress analyzed through CBP Land Cover updates (2021)

What is our Expected and Actual Progress?

15th Annual Chesapeake Watershed Forum

Heat, Health & Trees

Key Priorities – 2021-2022 Workplan

1. Funding & Policy Roundtable & Biennial Tree Canopy Summit (2022)

2. Assess and Communicate Tree Canopy Status & Change to Stakeholders

Use new land cover data/change analysis to develop Bay-wide Summary Report and Local Fact Sheets

3. Continue partnership work around priority issues

- > Tree Equity & DEIJ tools, resources, community support
- Climate Resilience, Stormwater
- ➤ Local Leadership, Schools

Trees and Schools: Growing the Connection
A Resource Guide for Chesapeake Communities

Response to WQGIT Comments

Edits to incorporate MDE comments (in red)

- ✓ Outreach needed on public <u>& private land</u>
- ✓ Include more USWG coordination
- ✓ Highlight workforce/green jobs opportunities

Next Steps

Local Action Cohort SRS

- April 30-Near Final LAP Due (approved by FWG & WQGIT)
- May 3-28 Public & Signatory Feedback
- June 10 Present Final LAP to Management Board
