

# Wastewater Quality Assurance Plans

QUALITY ASSURANCE PROJECT PLANS Quality Assurance Project Plans (QAPPs) for the collection and use of environmental data are required from the seven watershed jurisdictions. These QAPPs document how jurisdictions are reporting implementation data for progress scenarios and need to be up to date to assist in facilitation of the grant monitoring process by CBIG and CBRAP project officers – as well as to accommodate work of the CBP BMP Verification Review Panel and CBP BMP Verification Committee, specifically each jurisdiction's BMP verification program plans. Additionally, jurisdictions are expected to update their QAPPs when new data sources become available which enable them to enhance reporting of existing or newly approved BMPs. QAPPs are required for all data described in this document.

On **page 1** of the Chesapeake Bay Program Grant Guidance Attachment 6 - Chesapeake Bay Program Wastewater Facility and BMP Implementation Data Submission Specifications and Requirements
