- 10:00 AM **Welcome, Introductions, and Announcement** Spano
Action item: Approval of May WWTWG minutes (Attachment A)
- 10:10 AM **Nutrient discharges from grey infrastructure expert panel report** Schueler
The nutrient discharges from grey infrastructure expert panel (formerly Illicit Discharge Detection and Elimination) was convened under the Urban Stormwater Workgroup (USWG). Tom will brief the WWTWG on the expert panel's recommendations (Attachment B), which were presented to the USWG on June 17th. The USWG will be asked to approve the panel's recommendations on July 15th.

Action requested: Workgroup discussion and feedback regarding the expert panel's recommendations. Comments should be sent to Tom (watershedguy@hotmail.com) and Cecilia Lane (watershedgal@hotmail.com) by June 30th.
- 10:50 AM **Biosolids and spray irrigation** Johnston
Matt will describe the biosolids data availability in the states, based on his conversations following the May WWTWG call. He will discuss the schedule for the data collection effort and how it aligns with the Midpoint Assessment.

Action requested: Workgroup discussion and agreement with the general schedule.
- 11:15 AM **WWTWG and STAC workshop recommendations** Spano, Zhou, and Hanson
Tanya, Ning and Jeremy will lead discussion on the workgroup's recommendations in response to the STAC OWTS workshop recommendations (Attachment C).

Action requested: Workgroup feedback on the proposed WWTWG recommendations (Attachment C).
- 11:40 AM **Updates and other business**
 - New WQGIT governance protocol
 - Septic attenuation expert panel underway
 - WQGIT face-to-face in the fall (October)
 - Additional workshops/special sessions – Are there other issues the workgroup is interested in investigating/finding out more about?
 - Chairmanship – Are there any members that would like to be Chair, or even Vice Chair?
 - Other updates from the workgroup
- 12:00 PM **Adjourned**
