

SAMPLE QUESTION

Click on the text box on the menu on the left ("T" in a square) and enter text in your row

DC**DE****MD****NY****PA****VA****WV**

	Have you formalized an approach and process for development of FCA for any PFAS? If so, which PFAS?
DC	No, not yet
DE	following up
MD	Yes, PFOA, PFOS, PFNA, PFBS, PFHxS. GenX measurements in the future.
NY	
PA	Great Lakes Best practices, potential change timing TBD
VA	Not yet.
WV	No

	If you have developed your approach, what is the concentration threshold of PFAS for no restrictions and do not eat? (please provide both numbers for PFOA and PFOS)
DC	
DE	
MD	
NY	
PA	
VA	
WV	

	If you have not finalized your approach, what are your current gaps or hurdles?
DC	Just received our first set of fish tissue data and just starting analysis and interpretation
DE	
MD	RfDs from EPA that have consensus across ATSDR and FDA for PFAS 
NY	
PA	
VA	
WV
